EDUCATION

VIT Bhopal University

B.Tech in Computer Science Engineering (AI & ML)

July 2023 – Present

CGPA: 8.22

Seventh Day Adventist Higher Secondary School, Ahmedabad

Class XII: 79% Class X: 75%

2009 – 2023

SKILLS

Programming Languages: Python, C++, Java

Frameworks & Technologies: Spring Boot, Django, Flask, REST APIs, Salesforce Lightning

AI & Data: Generative AI, Retrieval-Augmented Generation (RAG), Machine Learning, Data Analytics

Core CS Concepts: Data Structures & Algorithms, System Design, Object-Oriented Programming, Database Management Systems

Databases & Cloud: MySQL, H2 Database, Cloud Computing

Developer Tools: Git, GitHub, Postman, VS Code

Enterprise Platforms: Salesforce Administration, Salesforce.com Development

Certifications: Google Data Analytics Professional Certificate, Google IT Support Professional Certificate, Infosys Springboard AI, MongoDB Developer Toolkit, Open-source LLMs with RAG

EXPERIENCE

Cognifyz Technologies

Data Science & Data Analyst Intern

Oct 2025 – Nov 2025

Remote

- Worked on data analysis, preprocessing, and visualization tasks using Python and data analytics techniques.
- Performed exploratory data analysis (EDA) and generated insights from structured datasets for business decision-making.
- Utilized Python libraries and analytical methods to improve data interpretation and reporting efficiency.

Salesforce Internship

Salesforce Administrator Intern

May 2025 – Aug 2025

Remote

- Worked on Salesforce Administration, Lightning components, workflow automation, and CRM management.
- Managed user roles, permissions, dashboards, reports, and business process customization within Salesforce platform.
- Gained hands-on experience in Salesforce ecosystem, cloud-based solutions, and enterprise CRM workflows.

PROJECTS

Weather Health Advisory App

Python, Tkinter, OpenWeatherMap API, OpenAI API

Aug 2024 – Oct 2024

- Developed an AI-powered weather health advisory application integrating real-time environmental analysis and personalized health recommendations.
- Integrated OpenWeatherMap and OpenAI APIs to deliver real-time weather insights and AI-generated health advisories through an interactive Tkinter GUI.
- Processed JSON data efficiently and implemented robust error handling using tkinter.messagebox.

Online Shopping Website

Spring Boot, JPA, Thymeleaf, Bootstrap

Mar 2025 – Jul 2025

- Developed a scalable Java Spring Boot based e-commerce platform with responsive UI, cart management, and dynamic product handling.
- Implemented product listings with discounts, shipping charges, and image-based product descriptions.
- Used Spring Boot, Spring Data JPA, H2 Database, Thymeleaf, Bootstrap 5, and Lombok for full-stack development.

ACHIEVEMENTS

- Achieved Global Rank 316 in LeetCode Weekly Contest 441 among thousands of participants worldwide.
- Solved 650+ coding problems across LeetCode and competitive programming platforms.
- Published research paper on KrishiCare: AI-based Plant Disease Detection and Fertilizer Recommendation System.
- Runner-Up in IEEE Hackathon at VIT Bhopal University sponsored by Coding Ninjas.
- Top-50 Finalist in AI Agent Creator Challenge hosted on Unstop.

LEADERSHIP EXPERIENCE

The Linpack Club, VIT Bhopal University	Jun 2025 – Apr 2026
<i>President</i>	<i>VIT Bhopal University</i>
• Led technical initiatives, workshops, and collaborative events focused on emerging technologies and software development. • Managed team coordination, event execution, and student engagement activities within the university community. • Organized technical sessions and promoted innovation-driven learning among students.	

ADDITIONAL INFORMATION

- Interests: Competitive Programming, AI Systems, Backend Engineering, Open-Source Technologies, and Scalable Software Development
